Get the file that corresponds to your platform below.

EUROPA is packaged as set of shared libraries, which should satisfy most users' needs. Get the static libraries bundle only if you intend to use EUROPA that way.
If your platform does not appear here, you can build EUROPA yourself as described here

Note: static libs for EUROPA-2.2 on Windows will be posted soon

EUROPA-2.2 See details	Linux Mac-ppc Mac-intel Windows Solaris	Linux-static-libs Mac-ppc-static-libs Mac-intel-static-libs Windows-static-libs Solaris-static-libs
EUROPA-2.1.2 See details	Linux Mac-ppc Mac-intel Windows Solaris	Linux-static-libs Mac-ppc-static-libs Mac-intel-static-libs Windows-static-libs Solaris-static-libs
